

# Jerry Ouellette's Oshawa Update: Focus on Health Care & Education

## Focus on Health Care and Education for Oshawa

As the Member of Provincial Parliament for Oshawa, focusing on essential health care services and delivery, and educational facilities and programs have been my top priorities.

With the new state-of-the-art R.S. McLaughlin Durham Regional Cancer Centre up and running in Oshawa; a new Emergency ward, Critical-Care Unit and Intensive-Care Unit at Lakeridge Health Oshawa all up and running; the newly opened Heather Griffith Breast Assessment Centre; continued development and expansion with the new Lakeridge Health Education and Research Network (LHEARN) Teaching Hospital and Medical School; and the new Oshawa Community Health Centre's Dr. Bryce A. Brown Wellness Centre, Oshawa has seen health care investment like never before.

Oshawa has also experienced tremendous growth and development in educational facilities and programs. With UOIT, Ontario's first university in 40 years; including the recently opened Automotive Centre of Excellence (ACE) and Clean Energy Research Laboratory (CERL); expansion of new downtown UOIT campuses; growth and expansion at Durham College; over a dozen new or completely re-built schools including Maxwell Heights Secondary School, Oshawa's first new high school in 25 years; education investment in Oshawa has been historic.

The completely re-built Hillsdale Manor; the new Conant Branch of the Oshawa Senior Citizens Centres up and running, and numerous other dedicated programs have also helped to better serve the seniors of Oshawa.

Oshawa is strong and proud and I am pleased to work with such a community. When it comes to delivering top quality health care and education, it's a community that makes a difference. It hasn't been easy, but working together we've been able to bring investments in health care and education like Oshawa has never seen.

Let's keep Oshawa strong and growing for our children's children.

Jerry J. Ouellette  
MPP, Oshawa
