Ouellette Questions Minister on Lack of Accountability

Opposition Critic Calls on McGuinty Government to Table Special Purpose Account (SPA)

(Queen's Park) – Jerry J. Ouellette, MPP Oshawa questions Minister of Natural Resources as to why, for the past two years, the McGuinty government has not bothered to table the Special Purpose Accounts to the Legislative Assembly.

The Minister seemed confused as to when these reports will be tabled. In one sentence, the Minister states “I look forward to tabling those documents in the near future for the member and for all of the members in the Legislature”.

Then a few minutes later, the reports are miraculously heading to the clerk's office.

“I have been looking at those documents and have directed my staff to table those documents. A letter is on its way to the Clerk, Deb Deller, as we speak, I believe”, assured Linda Jeffrey, Minister of Natural Resources.

“It is utterly ridiculous that the Minister has no clue what is actually occurring in her own Ministry”, says Ouellette, “How are we supposed to restore pride back into Natural Resources when we have a Minister that doesn't know which way is up”.
